***Election/Restrictions***

Applicant's election of claim group II, claims 11-16 in the papers filed 29-DEC-2003 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

***Information Disclosure Statement***

The information disclosure statement filed 29-DEC-2003 complies with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609. Accordingly, it has been placed in the application file and the information referred to therein has been considered as to the merits.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney, Ms. Pamela J. Curbelo, on 02-MAR-2004.

The application has been amended as follows:

Claim 29, line 3, -- and a retardation value of less than about 100 nanometers -- has been inserted after "microinches" and before the comma, ", ,".

This application is in condition for allowance except for the presence of claims 17-24 directed to claim group II, which was non-elected without traverse. Accordingly, claims 17-24 have been cancelled.

The following is an examiner's statement of reasons for allowance:

Art Unit: 1732

Applicant's arguments directed to all rolls do not produce low birefringence and/or low stress is persuasive. Applicant further suggested that the roll design affects the resulting material and pointed to the evidence shown in Example 1, pg. 14, to support the position. Accordingly, the Examiner has placed substantial weight upon the structure and properties recited in the preambles of claims 11 and 29 as well as upon the claimed roll structure which, as argued by applicant, is considered to play a critical role in the instant process.

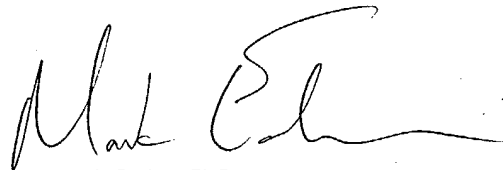

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
